Changes to the UCC database, as a result of Revised Article 9, will produce exact match results only. Misspellings, abbreviations, transpositions and other variations in the secured party name may result in some filings not being found. It is important to subscribe to one UCC Expiration Warning Report for each secured party name and address you wish to monitor.

As part of your subscription we will search one Primary name and up to four name variations of the Primary name. Names not similar should be listed a second or third Primary Name, not as a variation.

First Primary Name: _____ **City:** _____
